

We have to Act quick therefore this is our project design data flow diagram In the Below we first login as

1. Citizen and Request for Help
2. Admin get the Citizen help Request (SOS) which assign Responder
3. Responder Acknowledge and Update the status of Disaster and At last Close the ticket
4. Admin can check the status of Citizen SOS anytime.

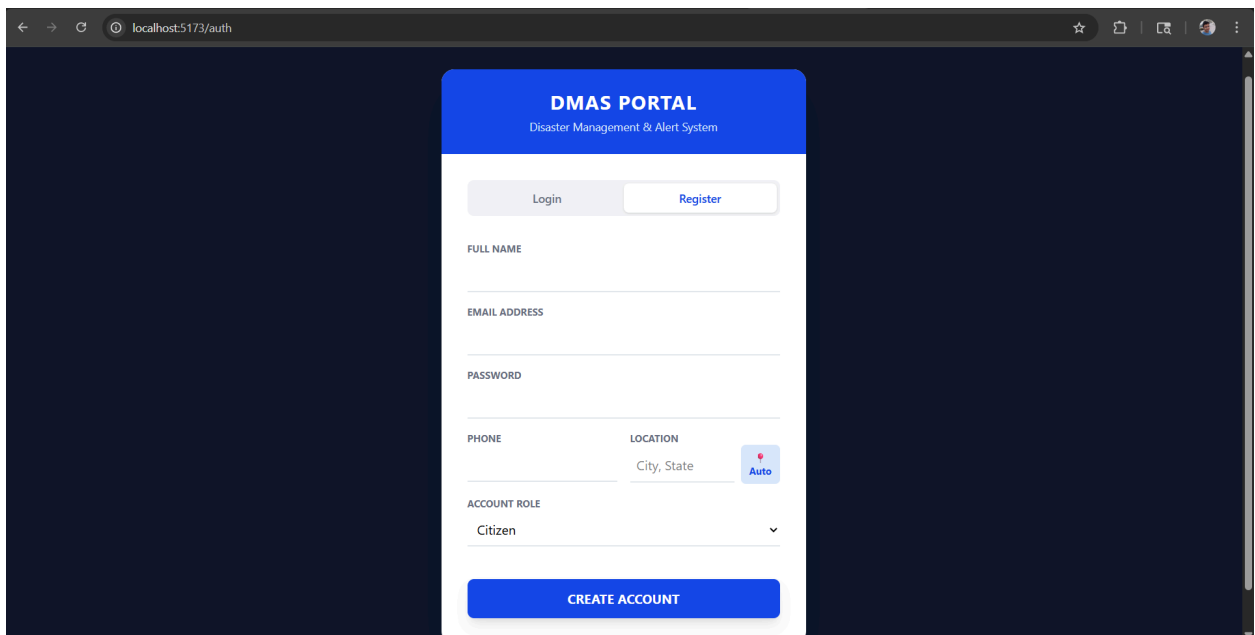

Step 1 : Login Page / Signup

Login Page
for Admin, Responders, Citizens

The screenshot shows a web browser window with the address bar displaying 'localhost:5173/auth'. The page features a dark blue background with a central white login form. The form has a blue header with the text 'DMAS PORTAL' and 'Disaster Management & Alert System'. Below the header, there are two tabs: 'Login' (active) and 'Register'. The form contains fields for 'EMAIL ADDRESS' (with the value 'rohit@gmail.com') and 'PASSWORD' (masked with dots). A blue 'SIGN IN' button is at the bottom of the form.

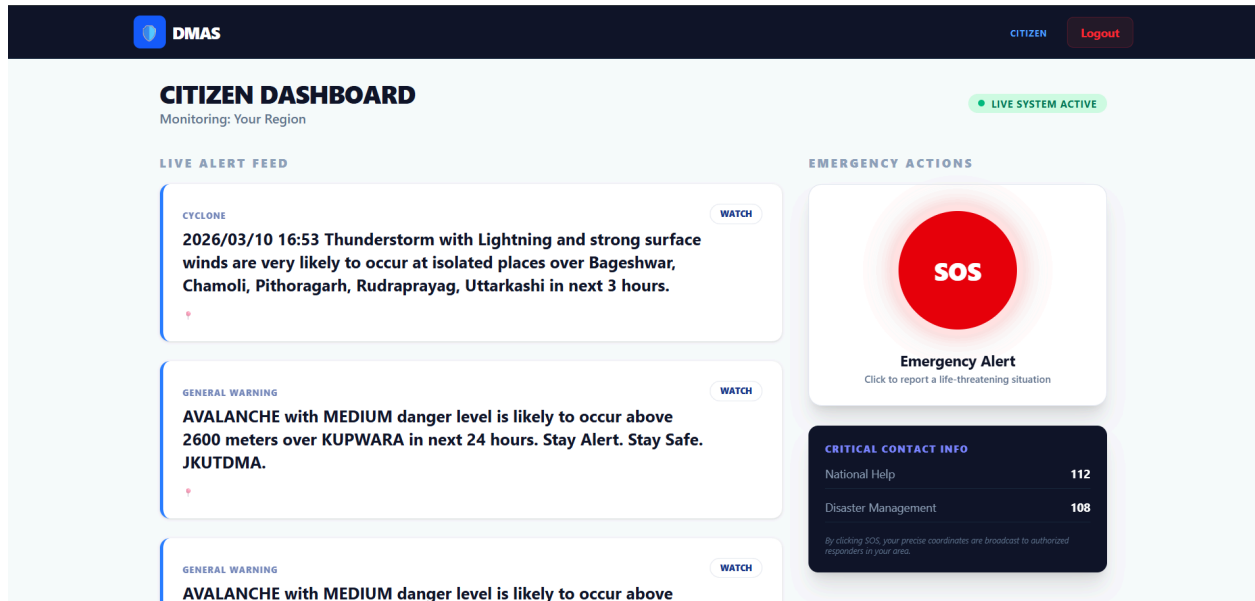

Signup Page
for Admin, Citizen, Responders

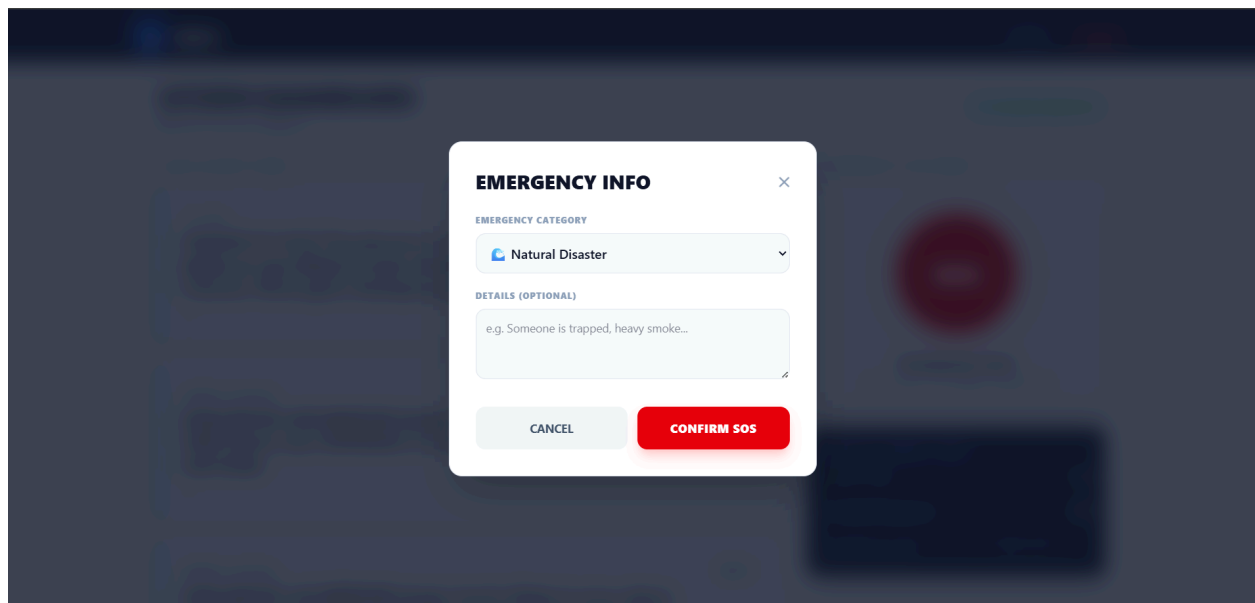

The screenshot shows a web browser window with the address bar displaying 'localhost:5173/auth'. The page features a dark blue background with a central white signup form. The form has a blue header with the text 'DMAS PORTAL' and 'Disaster Management & Alert System'. Below the header, there are two tabs: 'Login' and 'Register' (active). The form contains fields for 'FULL NAME', 'EMAIL ADDRESS', 'PASSWORD', 'PHONE', 'LOCATION' (with a dropdown menu showing 'City, State' and an 'Auto' button), and 'ACCOUNT ROLE' (with a dropdown menu showing 'Citizen'). A blue 'CREATE ACCOUNT' button is at the bottom of the form.

Responders Dashboard

Step 6 : Responders Acknowledgement acceptance dashboard

The screenshot displays the 'FIELD RESPONDER' dashboard. At the top, there's a dark header with a 'DMAS' logo and a 'RESPONDER' label with a 'Logout' button. Below the header, the dashboard shows two incident cards for a responder named 'Rohit'. The first card, labeled 'EN_ROUTE' and '#REQ-2', shows an incident 'earthquake near Gurugram' with an 'UPDATE PROGRESS' button. The second card, labeled 'AT_LOCATION' and '#REQ-8', shows an incident 'Heavy Rain' with an 'UPDATE PROGRESS' button. A green dot indicates 'LIVE CONNECTION ACTIVE'.

Step 7 : Responders updating Status of Help Requested by Citizen

The screenshot shows a 'POST UPDATE' modal window. It has a title bar with a close button. The modal is divided into two main sections. The first section, 'CURRENT STATUS', contains four buttons: 'EN_ROUTE' (highlighted in blue), 'AT LOCATION', 'CRITICAL', and 'COMPLETED'. The second section, 'UPDATE NOTE', contains a text input field with the placeholder text 'Describe the current situation...'. At the bottom of the modal is a large blue button labeled 'CONFIRM & SYNC WITH COMMAND'.
